

In light of the recent developments regarding COVID-19 and the rate at which the situation is currently escalating across the globe, we have made the difficult decision to close our restaurant for dine-in service. We will continue operations for hotel room service and take-out service only for the public – until further notice.

Our primary priority has always been and remains that of our people – our employees who work tirelessly to deliver unparalleled service to our guests, our loyal guests and the local Kelowna Community for whose support we are grateful.

We are confident that sooner than later, we will rise again together as a community, brighter and stronger once this tide has turned. Until then, we must all do our part to ensure that we are staying safe and being our neighbour's keeper.

We wish you the best of health. Stay safe.

With gratitude,
The Gulfstream Restaurant Team
